EXECUTIVE SUMMARY

Scope and Methodology

This report includes data about the August 2016, December 2016, and May 2017 Bradley University baccalaureate and graduate degree recipients. The study utilizes data from 95% of all baccalaureate degree recipients and 94% of all advanced degree recipients. Data was collected from students via graduation fair surveys, online surveys, telephone and email solicitations, alumni records, social media research, and input from faculty, staff, and employers. Data collection began in August 2016 and concluded in December 2017.

Career Outcomes and Knowledge Rate

The Bradley University career outcomes rate for the 2016-2017 baccalaureate graduating class is 92%. This is comparable to both our five (93%) and ten year (92%) and 1% lower than our 2015-2016 career outcomes rate of 93%. The career outcomes rate is calculated by dividing the number of students who are employed or continuing their education by the total number of students about whom we have information. We successfully contacted, surveyed, and/or researched 1,065 of our baccalaureate graduates which resulted in a 95% knowledge rate. The term “knowledge rate” defines the percentage of graduates for whom we have reasonable and verifiable information concerning the graduates’ post-graduation career activities. Our knowledge rate is considerably higher than the national recommended minimum knowledge rate of 65%.

Experiential Learning

The Bradley University experiential learning rate for the 2016-2017 baccalaureate graduating class is 96%. This was calculated by tracking students' participation in opportunities such as: internships, co-ops, practica, faculty-led research, capstone projects and study abroad. For experiential learning, internships play a significant part. Of the 1,117 graduates, 83% had a career-related experience, such as an internship or practicum. Baccalaureate graduates interned with 736 different employers in 35 states and 12 countries.

Employers

Baccalaureate degree graduates were employed with 576 different employers in 30 states and 5 countries. The diversity found within this group is a benefit for our students. Employers with a strong recruiting presence on campus include: Alpha Media LLC , Archer Daniels Midland Company (ADM), Caterpillar Inc., COUNTRY Financial, Deere & Company, Enterprise Rent-A-Car Company, Graycor Inc., HNI | HON | Allsteel, Hy-Vee, Inc., OSF HealthCare System, Produce Pro Software, State Farm Insurance, Target Corporation, and Walgreens.

Smith Career Center

96% of baccalaureate graduates used the services of the Smith Career Center while attending Bradley University. In 2016-2017 we provided 100 workshops for all students and 134 presentations to classes or groups. Career Advisors met one-on-one with 2,617 students (unique) for a total of 5,481 appointments. The Smith Career Center remained a top source of job leads for accepted positions when students utilized resources such as internships, job fairs, and Bradley netWORK.

Standards and Protocols

The terminology, standards, and protocols of the National Association of Colleges and Employers (NACE) are utilized throughout this study. NACE is the preeminent national organization focused on the employment of the college educated. In addition to these standards, the data collection, analysis and reporting of the Smith Career Center First Destination Study was internally audited in 2016.

Graduates = total number of graduates in the college

With Data = the number of graduates about whom we have data

Knowledge Rate = the percentage of the graduates for whom we have career outcomes information

Employed = employed, military service, service organization, artistic pursuits, fellowship, or own venture

Continuing Education = enrolled in graduate programs, professional school, specialized training programs, teacher certification, or second Bachelor's degree

Career Outcomes = the sum of % Employed and % Continuing Education

(Due to rounding, the % Career Outcomes does not always equal the sum of % Employed and % Continuing Education)

Graduates = total number of graduates in the college

With Data = the number of graduates about whom we have data

Knowledge Rate = the percentage of the graduates for whom we have career outcomes information

Employed = employed, military service, service organization, artistic pursuits, fellowship, or own venture

Continuing Education = enrolled in graduate programs, professional school, specialized training programs, teacher certification, or second Bachelor's degree

Career Outcomes = the sum of % Employed and % Continuing Education

(Due to rounding, the % Career Outcomes does not always equal the sum of % Employed and % Continuing Education)
